SUMMARY

Data Analyst / Business Intelligence Analyst with **3+ years of experience** transforming complex business data into dashboards, reporting solutions, and actionable insights using **SQL, Power BI, Tableau, Python, and cloud data platforms**. Strong in data modeling, ETL, KPI development, data quality, statistical analysis, reporting automation, and translating business requirements into scalable analytics solutions.

SKILLS

BI & Visualization: Power BI, Power BI Service, Tableau, Metabase, SSRS, Excel, DAX, Power Query (M)
SQL & Data Modeling: Semantic Models, Star Schema, Data Warehousing, RLS, CTEs, Joins, Window Functions, Query Tuning
Analytics & Programming: Python, Pandas, NumPy, EDA, Statistical Analysis, Trend Analysis, Forecasting, Data Validation
ETL & Cloud: Azure Data Factory, SSIS, Microsoft Fabric, Snowflake, Azure SQL, Azure Data Lake, AWS S3, AWS Glue
Databases & Delivery: SQL Server, PostgreSQL, MySQL, Power Automate, Git, GitHub, Jira, Agile/Scrum

WORK EXPERIENCE

Data Analyst **Sept 2025 - Present**
| Dell Technologies, Canada

- Partner with finance, operations, supply chain, and engineering teams to translate requirements into scalable **BI solutions**.
- Build **Power BI and Tableau dashboards**, semantic models, DAX measures, and KPI frameworks for business reporting.
- Develop advanced **SQL queries and Azure Data Factory pipelines** across CRM, ERP, and enterprise data sources.
- Perform **data validation, reconciliation, trend analysis, and root-cause analysis** to improve reporting quality.
- Automate recurring reports using **Python, SQL, Excel, and Power Automate**, reducing reporting turnaround by **40%**.
- Analyze budgets, costs, variances, and forecasts to identify risks, inefficiencies, and **cost-optimization opportunities**.

Business Intelligence Analyst **Jan 2024 - Aug 2025**
| HCLTech, India

- Built **Power BI and Tableau dashboards** for KPI tracking, business performance, and operational reporting.
- Developed and optimized **SQL queries, views, and datasets** across **PostgreSQL, MySQL, and Snowflake**.
- Automated ETL and reporting using **Python, Pandas, SQL, AWS S3, and AWS Glue**, saving **20+ hours/month**.
- Performed **EDA, regression, forecasting, and root-cause analysis** to identify trends, anomalies, and business opportunities.
- Partnered with stakeholders on **KPI definitions, UAT, data validation, DAX standards, and self-service BI** reporting.
- Analyzed **10M+ records** using **advanced SQL** to identify trends, anomalies, and actionable insights for business teams.

Business Intelligence Intern **Jul 2023 - Dec 2023**
| TechAnek Technologies, India

- Developed standardized **SSRS reports and SQL Server datasets** for **5+ teams**, cutting reporting cycle time by **40%**.
- Built SQL models using **CTEs, joins, window functions, and reusable views** across **50K+ records**.
- Automated ETL and validation workflows using **SSIS and Excel**, reducing month-end reporting rework by **~30%**.
- Built **Metabase dashboards and ad hoc reports** while optimizing SQL and delivering updates through Jira and Git.
- Gathered business requirements and translated them into **reusable datasets, dashboards, and reports**.

PROJECTS

DataNorth | [Website](#) | [Source Code](#) Apache ECharts, Data Modeling, KPI Reporting

- Built DataNorth with NORDIK Institute as a Northern Ontario public-data platform covering **53 indicators, 10 categories and 6 communities** with interactive dashboards and Statistics Canada data.

Power BI & Data Analytics Portfolio | [Source Code](#) Power BI, SQL, DAX, SSIS, Azure Synapse, PySpark, ADF

- Built a growing portfolio of **end-to-end BI and data analytics projects** covering dashboard development, SQL analysis, ETL, data warehousing, cloud pipelines, and Medallion Architecture, with datasets ranging up to **1M+ transactions**.

Canadian Superstore Analytics Hub | [Website](#) | [Source Code](#) Python, Pandas, FastAPI, RFM

- Built a sales analytics dashboard on **~10K orders** with **8 cross-filters and 10 analytical endpoints** covering KPI trends, RFM, market-basket and profitability analysis.

EDUCATION

M.Sc. Computer Science, Algoma University - Canada | GPA: 3.9/4.0

Completed Jul 2026

B.E. Computer Engineering, Gujarat Technological University - India | GPA: 3.9/4.0

Oct 2020 – Jul 2024
