SUMMARY

Data Analyst / Business Intelligence Analyst with **3+ years of experience** delivering **BI dashboards, KPI reporting, and data analytics** using **SQL, Power BI, Python, and Azure**. Skilled in **ETL, data modeling, data validation, ad hoc analysis, and data visualization** across healthcare and insurance to improve **reporting efficiency and business decision-making**.

SKILLS

BI & Visualization: Power BI, Power BI Service, DAX, Power Query (M), Tableau, SSRS, Dashboard Development, KPI Reporting, Scheduled Refresh

SQL & Data Modeling: SQL, Semantic Models, Star Schema, Row-Level Security (RLS), CTEs, Joins, Window Functions, Query Optimization

Data Analytics: Python, Pandas, EDA, Statistical Analysis, Ad Hoc Analysis, Data Cleaning, Data Validation, Data Reconciliation

ETL & Cloud: Azure Data Factory, SSIS, ETL Pipelines, Azure SQL Database, Azure Data Lake, Microsoft Fabric, Snowflake

Business & Reporting: Requirements Gathering, Operational Reporting, Data Storytelling, KPI Analysis, Business Requirements

Databases & Tools: SQL Server, PostgreSQL, MySQL, Excel, Git, GitHub, Jira, Agile/Scrum

WORK EXPERIENCE

Data Analyst

Sept 2025 - Present

| Dell Technologies, Canada

- **Power BI Service:** Built dashboards across **5 clinical KPI** areas using **DAX, Power Query, RLS** and **scheduled refresh**.
- **Azure ETL:** Cut manual reconciliation **15%** by moving **EHR data** from **Azure SQL Database** to **Azure Data Lake/Microsoft Fabric** through **ADF pipelines**.
- **Python & Pandas:** Reduced reporting exceptions **5%** through automated **cleaning and validation of MRN, encounter, provider and diagnosis data**.
- **SQL & Data Modeling:** Accelerated cross-functional reporting **20%** using **optimized SQL and star-schema semantic models** for patient, encounter and provider data.
- **Requirements & Analytics:** Standardized **4 core KPI definitions** and delivered **ad hoc analysis and data storytelling** with clinical stakeholders.

Business Intelligence Analyst

Jan 2024 - Aug 2025

| HCLTech, India

- **Tableau & KPI Reporting:** Cut reporting turnaround **12%** by building **18+ dashboards** for conversion, retention, claims and premium KPIs.
- **SQL & Snowflake:** Reduced report preparation **15% across 6 functions** by centralizing policy, claims and renewal data across **PostgreSQL, MySQL** and **Snowflake**.
- **Python & Pandas:** Saved **8 hours/week** by automating policy, broker and claims **ingestion, cleaning, validation** and **reconciliation**.
- **SQL Optimization:** Improved dashboard response **8% across 70K+ records** using **CTEs, joins, window functions, query tuning** and **star schema**.
- **Business Analytics:** Enabled **10% faster portfolio decisions** through **EDA, statistical** and **ad hoc analysis** of premium leakage, renewals and claims trends.

Business Intelligence Intern

Jul 2023 - Dec 2023

| TechAnek Technologies, India

- **SSRS & SQL Server:** Reduced month-end reporting rework **~30%** by rebuilding recurring operational reports on reusable **SQL views**.
- **SSIS & ETL:** Automated scheduled data pipelines for **5+ recurring reports**, reducing manual month-end preparation and refresh errors.
- **SQL Analysis:** Built reusable **CTE, join** and **window-function queries** for trend, variance and exception analysis across **operational datasets**.
- **Excel & Reconciliation:** Validated source-to-report totals using **pivots, lookup checks** and **reconciliation rules** before report publication.
- **Agile Delivery:** Delivered reporting changes through **Jira** and **Agile/Scrum** while versioning **SQL/report** assets with **Git** and **GitHub**.

PROJECTS

- | **DataNorth** | [Website](#) | [Source Code](#) Apache ECharts, Data Modeling, KPI Reporting
- Built DataNorth with NORDIK Institute as a Northern Ontario public-data platform covering **53 indicators, 10 categories and 6 communities** with interactive dashboards and Statistics Canada data.
- | **Canadian Superstore Analytics Hub** | [Website](#) | [Source Code](#) Python, Pandas, FastAPI, RFM
- Built a sales analytics dashboard on **~10K orders** with **8 cross-filters and 10 analytical endpoints** covering KPI trends, RFM, market-basket and profitability analysis.
- | **Sault Ste. Marie Climate Trends Dashboard** | [Dashboard](#) | [Source Code](#) Tableau, Time-Series Analysis, Forecasting
- Built a Tableau dashboard on **33 years (1990-2023)** of CanDCS-M6 climate data with drilldowns, parameter filters and forecasting views for YoY/MoM analysis.

EDUCATION

M.Sc. Computer Science , Algoma University - Canada GPA: 3.7/4.0	2025 - 2026
B.E. Computer Engineering , Gujarat Technological University - India GPA: 3.9/4.0	2020 - 2024
